The News from Europe.

We publish, in the *Sentinel* of this morning full details of the news by the steamers *Hermann*, and *America* together with all that has been received of the *Arctic's* news. The two documents from England viz, the Declaration of War, and the Proclamation as to Neutral vessels,—will be read with interest. The former gives, in a concise form, the history of the matters which have given rise to the war; while the latter shows the precise position of English claims to the search of vessels of neutral powers.

It will be seen by the detail of news from the Danube, that the Russians are already in great force on the south side of that river, and that severe actions have already taken place there. The English and French re-inforcements are pushing forward to Omar Pacha's aid, in large force, and we shall soon hear stirring news from that quarter.

A Plea to an Indictment.

The Madison *Democrat*, "official organ" of the party, the State Administration and the Legislature replies at length to our charge against Gov. Barstow of having wilfully *violated* the State Constitution by the appointment of Senator HUNTER to the office of Private Secretary, and Senators VERTON and McLANE, as Members of the commission to locate the State Lunatic Asylum. The charge, as the *Democrat* says, is founded upon the following section of the Constitution.

"No Member of the Legislature shall, during the term for which he was elected, be appointed or elected to *any civil office in the State*, which shall have been created, or the emoluments of which shall have been increased during the term for which he was elected"

Such is the explicit language of the Constitution. Now as to the *facts*. Senators HUNTER, VERTON and McLANE are Members of the Legislature; and the offices which they respectively hold were "created" at the late session of that Legislature. In Mr. HUNTER'S case there is the additional fact that the "emoluments" of the office were increased from $600 to $1000 a year. All this was done "during the term for which" these gentlemen were elected, and they have been appointed to the offices so created during that same term. Can any sophistry, lying, or prettifogging get round this plain statement of fact—this express provision of the Constitution? One would think not. But let us see what the Administration apologist has to say to it. We quote its points.

We learn another fact in regard to this office. The emoluments were *fixed*, not *increased*, by the last act of the Legislature. The act, furthermore, did not *create* the office—it has existed from the organization of the State, and the law of last winter *merely declared the existence of an office which every body knew existed before*.

The same is true of the Commissioners to locate the Lunatic Asylum. They are not "civil officers" in any constitutional or legal meaning of the term. They are mere agents of the Governor for a mere temporary purpose and object.

* * * *

There are other considerations. The term for which these Senators were elected *has really, if not nominally expired*. They have served out their two sessions, and can only be called to act as Senators by the unexpected and extraordinary contingency of a special session of the Legislature. The term for which *they* were elected" has to all actual intents "expired." They have no further duties to perform—they receive no further pay. There is no sound reason *in common sense* why they should not be appointed to even a "civil office." But the fact that a membership of a commission or a private secretaryship is *not* a "*civil office*" obviates all ground for the charge of the *Sentinel*.

Such is the "official" plea to the indictment found against the Governor, of having violated the Constitution. A flimsier pretext was never set up by a subservient party hack to justify Executive usurpation, or palliate flagrant wrong. The office of Private Secretary was created at the last session of the Legislature. If it "existed" before, it did so without authority in law and by the mere *jest* of the Governor. The "emoluments" were increased from $600 (the sum heretofore allowed the Governor for Clerk hire) to $1000, the salary affixed to the new office of Private Secretary. The title itself of the act reads "to provide for an *increase of the salary* of the Private Secretary of the Governor" (General Laws, No. 71.) The Secretary and the Commissioners are "civil officers" in the eye of the law and of "common sense," as well as in the intent and meaning of the Constitutional provision.—The term for which these recipients of Executive bounty were elected has not expired, either "nominally" or "really." The Constitution fixes that term at "two years," and it does not expire till the 1st Monday in January next, the commencement of the "political year" in Wisconsin. Suppose that a contingency should arise in this State—as it has done in other States—requiring an extra session of the Legislature—who would represent the Northern District of Milwaukee County? Why his Excellency's "Private Secretary"—while Sauk and Waukesha would have the honor of being represented by two of his Excellency's private and personal "agents!" Can a Senator thus serve two masters? Is an "agent," of the Governor a fit representative of the People? Does it need another word of argument to demonstrate the fatuity of this defense? Let the People, with the law and the testimony before them, decide! How say you electors of Wisconsin? Is WILLIAM A. BARSTOW, Governor of this State, Guilty or Not Guilty of violating the Constitution in appointing Senators to offices created during the term for which they were elected?

LATEST HOME NEWS.—Gov. Barstow leaves Milwaukee this (Wednesday) morning, having in his pocket the resignation of H. D. Barron as Postmaster at this place, and also the resignation of J. D. Reymert as State Senator—together with a recommendation that Mr. Reymert be appointed P. M. at this place.—*Waukesha Democrat.*

Another Senator, it seems, wants his pay, and Gov. Barstow is going to Washington to get it for him! This, be it remembered, is no "Whig invention," but the statement of the Democratic paper published at Gov. Barstow's own residence. We suggest that his excellency persuade the balance of his friends in the Senate to resign and procure similar appointments for all of them.—The People will be glad to get rid of the lot on almost any terms.

THE NEW YORK TRIBUNE.—The *Tribune* now prints 30,880 Daily, 11,500 Semi-weekly, 103,680 Weekly, and 3,500 California Tribunes—making an aggregate of 145,460. The net gain for the past year is 70,900 papers. The profits of the paper appear to have kept pace with its increased circulation. From Jan'y 1st to April 9th, 1853, its gross receipts were $69,489. During the same period in 1854, the gross receipts were $112,864—showing an increase in fourteen weeks, of $43,375.

This is great prosperity, but no greater than the *Tribune* deserves. It is a noble specimen of American Journalism.

ANOTHER BLOW FROM THE SOUTH.—Mr. CUTTING, whig member of Congress from Tennessee, has spoken out boldly and manfully in the House of Representatives against the Nebraska bill.—At the close of his speech, many members, and Mr. BENTON among them, crowded around him to offer their congratulations.

COL. FREMONT'S EXPEDITION.—A letter from Col. FREMONT, dated Feb. 9th, and one from Mr. CARTALHO, an Artist attached to the party, of the same date, state that tho' the expedition had suffered terribly, but *one* man had died, a Mr. FULLER, of Missouri.

Correspondence of the Daily Sentinel.

Men and Things in Gotham—No. 12.

NEW YORK, April 9th, '54.

Messrs. Editors:

Nothing remarkable disturbs the quiet of this excitement-loving City at present. European news and secret diplomatic correspondence abroad, and "cutting" letters given and received, at home, form the staple of newspaper matter just now; pleasantly varied by erratic missives from that hair-brained *Emerald* in yankee setting, yclept John Mitchell, the savior of his country; on which hatred dire is embattled, Canada threatened, and young Ireland at home entreated not to "march to glory or the grave" on British account. All very fine, but probably ineffective, for Pat. is a soldier of fortune and will always fight, particularly for pay and provant; and England's necessity will never prove Ireland's opportunity, "John's" opinion to the contrary notwithstanding.

Gov. Seymour's objections to the "Temperance Bill" have revived the spirits of this imbibing and thirsty town. Before they came, blank horror seemed to mark the face of the community, and old topers grew pale at what they saw in the dim future. No paper but the *Tribune* condemns the Veto, though it is generally conceded the "bill" was of too ultra a character ever to be carried into effect. Perhaps it was; and if so what of it? The people knew the sentiments of those they placed in office, before they did so. If it had only been a fugitive slave law now, it would doubtless have been more palatable.

As a bit of resurrection news, the Crystal Palace enterprise is worth a mention. The newly elected ticket gave the stock a handsome rise in the market, but the busy B. at the head of the great Hive threatens to leave, the concern being so rotten as to be beyond the hopes of recovery, even under his care—so down goes the stock lower than ever; then, following on the heels of this gloomy intelligence, comes the reriving announcement from the same source that he can afford to pay $75,000 per year for the Palace, and also make a most capital spec from the operation; stock goes up to 47. All the Hotels, places of amusement &c. are subscribing heartily for tickets, and original stockholders will probably have the pleasure of seeing Wall St. pitch and toss their property, while the fit is on, till the final bankruptcy of the concern takes place.

Quite an excitement prevails in the city of Notions, owing to a recent demand made by Mr. Everett for the manuscript of the celebrated Hulseman letter, among the papers of Mr. Webster, with the assertion that he was the author of the important document, having done a good deed for the "Great Daniel" in a time of severe illness; what Mr. Everett says of course is true, but it is looked upon as an ungenerous step at this late day, and taken only for political ends. A general flare up in Boston is expected to grow out of it, attended with very unpleasant results, personally, among the friends of the two statesmen.

The old Bay State has been paying, in a military and civic point of view, unusual respect to the memory of the last of the heroes who met on Lexington Green and fought the bloody fight on Bunker Hill, Jonathan Harrington, aged 96. Mr. Everett, at the anniversary of the battle of Lexington in 1850, helped the Veteran put on his coat and remarked in his inimitable way, that with David of old he could say, "very pleasant art thou to me, my brother Jonathan." Nothing but History will soon connect us with the great past; the links from the living chain have nearly dropped away.

Abroad, Sir Thomas Noon Talfourd died very suddenly; he ranked high in the legal and literary world, and for his many virtues his loss is generally regretted; he was a remarkable instance of success achieved solely by merit, in a land where his social position originally was humble. His Tragedy of Ion is best known in this country, and has merit sufficient in itself to found the fame of any man. Rubini too is dead, once the greatest of Tenors. He left musical notes, if I may use the expression, to the tune of 4 million francs.

In the literary world nothing of much moment. Dickens new work "Hard Times" (what a title for a novel!), it is said, will receive interest from graphic sketches of the great English strikes it is said to contain. Fanny Fern, in a very *Fernny* way, has cut her two brothers, the Willises, saying that "some years since, misfortune deprived her of all her relatives." Benton's great work is nearly ready for the public and will be out in a few days.

Charlotte Cushman has gained fresh honors by acting in a tragedy in London; the best critics call it her greatest effort.

The ground for the Brooklyn City Railroad was broken at Fulton Ferry a day or two since and was an occasion of considerable rejoicing.—The Chamber of Commerce here has come out emphatically against the employment of Privateers in maritime wars, endorsing with approbation the recent proceedings on the same subject in England. Memorials are to be forwarded to the President, the Senate and the House of Representatives, for their co-operation in this matter.

The St. George's Club were to have had their opening day on Wednesday last, but were prevented by the owners of the ground by playing them a shabby strick. The New York club will offer them their ground in Hoboken for the present. The latter club determine next Tuesday when the 1st field day comes off. I am in hopes to give you in my next an opinion of their skill and ability to give the western boys a beating.

March went out like a Lion and April has not been a month of uncertain glories as yet. Gently the wind plays to-day and bright skies give it a loveliness but rarely seen in Gotham—a haley-on day, too fine to last. Yours &c. VIOLA.

State Finances Again.

The *Wisconsin* takes very good care not to let its readers see our table of figures, giving the *expenditures* of the State, in answer to its own charge of error on our part. We copied *its* article in full, and answered it fully; so fully that our neighbor, the organ of the State administration here, does not make an attempt to alter a figure of ours. What it does say is this;

The Sentinel gives an array of figures, which add about $100,000 to the expenditures of the State; but these are principally *estimates*, made by the editor, which may turn out to be very incorrect. We have no disposition to defend the extravagance of the Legislature; but, at the same time, we do not think it just to the State, or to the People, to put forth an array of figures, which are merely guess-work. They depreciate the scrip which is out, and so aid the rich harpies, without reforming the extravagance. The election will soon be at hand, and then the Sentinel can stretch as largely as it may desire, or as may suit the necessities of its party; but, in the meantime, spare the credit of the State by the imposition of mere estimates, especially as the figures can be obtained correctly, so far as the appropriations can be certainly known, from the office of the Secretary of State.

We regard the above as a confession of judgment by the *Wisconsin*, and are justified in doing so, until it shall copy our table, with the explanations accompanying it, and show where we are in error. It *is* true that a portion of our table consists of *estimates*, and no correct table can be made without them. But wherein are these estimates incorrect? And, supposing them, for the moment, to be 50 per ct. out of the way, will the *Wisconsin* acknowledge the correctness of the remaining excess, in *our* table, of some $70,000 over *its* table?

It is too late in the day for the *Wisconsin*, or the administration, to beg that the misdeeds of the Legislature shall not be exposed. We mean that they *shall* be exposed, and that long enough *before* the election, to enable the People to make up their minds as to whether or not they will elect just such another Legislature.

THE VESSELS ON LAKE HURON.—Later reports from Lake Huron state that the *Luther Wright* is ashore, dismasted, but not lost, and leave it doubtful whether the *Badger State* was ashore, or only blockaded by the ice. We shall hope for the best in both cases.

THE MISSING STEAMER.—The Steamship *City of Glasgow*, from Liverpool for Philadelphia, has now been out fifty three days, and no tidings of her whereabouts. She had on board 300 passengers and a Cargo valued at a million of dollars.

THE DECLARATION OF WAR.

From Supplement to The London Gazette of March 28.

DECLARATION.

It is with deep regret that Her Majesty announces the failure of her anxious and protracted endeavors to preserve for her people and for Europe the blessings of peace.

The unprovoked aggression of the Emperor of Russia against the Sublime Porte has been persisted in with such disregard of consequences, that after the rejection by the Emperor of Russia of terms which the Emperor of Austria, the Emperor of the French, and the King of Prussia, as well as Her Majesty, considered just and equitable, Her Majesty is compelled by a sense of what is due to the honor of her Crown, to the interest of her people, and to the independence of the States of Europe, to come forward in defense of an ally whose territory is invaded, and whose dignity and independence are assailed.

Her Majesty, in justification of the course she is about to pursue, refers to the transaction in which Her Majesty has been engaged.

The Emperor of Russia had some cause of complaint against the Sultan with reference to the settlement, which His Highness had sanctioned, of the conflicting claims of the Greek and Latin Churches to a portion of the Holy Places of Jerusalem and its neighborhood. To the complaint of the Emperor of Russia on this head justice was done, and Her Majesty's Ambassador at Constantinople had the satisfaction of promoting an arrangement to which no exception was taken by the Russian Government.

But, while the Russian Government repeatedly assured the Government of her Majesty that the mission of Prince Menchikoff to Constantinople was exclusively directed to the settlement of the question of the Holy Places at Jerusalem, Prince Menchikoff himself pressed upon the Porte other demands of a far more serious and important character, the nature of which he in the first instance endeavored, as far as possible, to conceal from her Majesty's Embassador. And these demands, thus studiously concealed, affected, not the privileges of the Greek Church at Jerusalem, but the position of many millions of Turkish subjects in their relations to their sovereign the Sultan.

These demands were rejected by the spontaneous decision of the Sublime Porte.

Two assurances had been given to her Majesty—one, that the mission of Prince Menschikoff only regarded the Holy Palaces; the other, that his mission would be of a conciliatory character.

In both respects Her Majesty's just expectations were disappointed.

Demands were made which, in the opinion of the Sultan, extended to the substitution of the Emperor of Russia's authority for his own over a large portion of his subjects, and these demands were enforced by a threat; and when Her Majesty learned that, on announcing the determination of his mission, Prince Menschikoff declared that the refusal of his demands would impose upon the Imperial Government the necessity of seeking a guarantee by its own power, Her Majesty thought proper that her fleet should leave Malta, and, in co-operation with that of His Majesty the Emperor of the French, take up its station in the neighborhood of the Dardenelles.

So long as the negotiation bore an amicable character Her Majesty refrained from any demonstration of force. But when in addition to the assemblage of large military forces on the frontier of Turkey, the Embassador of Russia intimated that serious consequences would ensue from the refusal of the Sultan to comply with unwarrantable demands, Her Majesty deemed it right, in conjunction with the Emperor of the French, to give an unquestionable proof of her determination to support the sovereign rights of the Sultan.

The Russian Government has maintained that the determination of the Emperor to occupy the Principalities was taken in consequence of the advance of the fleets of England and France. But the menace of invasion of the Turkish territory was conveyed in Count Nesselrode's Note to Redschid Pasha of the 19th (31st) of May, and restated in his dispatch to Baron Brunow of the 20th of May (1st of June, which announced the determination of the Emperor of Russia to order his troops to occupy the Principalities, if the Porte did not within a week comply with the demands of Russia.

The dispatch to Her Majesty's Embassador at Constantinople, authorizing him in certain specified contingencies to send for the British fleet, was dated the 31st of May, and the order sent direct from England to Her Majesty's Admiral to proceed to the neighborhood of the Dardenelles was dated the 3d of June.

The determination to occupy the Principalities was, therefore, taken before the orders for the advance of the combined squadrons were given.

The Sultan's Minister was informed that unless he signed within a week, and without the change of a word, the Note proposed to the Porte by Prince Menchikoff on the eve of his departure from Constantinople, the Principalities of Moldavia and Wallachia would be occupied by Russian troops. The Sultan could not accede to so insulting a demand; but, when the actual occupation of the Principalities took place, the Sultan did not, as he might have done in the exercise of his undoubted right, declare war, but addressed a protest to his enemies.

Her Majesty, in conjunction with the sovereigns of Austria, France and Prussia, has made various attempts to procure just demands of the Emperor of Russia without affecting the dignity and independence of the Sultan; and had it been the sole object of Russia to obtain security for the enjoyment by the Christian subjects of the Porte of their privileges and immunities, she would have found it in the offers that have been made by the Sultan. But, as the security was not offered in the shape of a special and separate stipulation with Russia, it was rejected. Twice has this offer been made by the Sultan, and recommended by the Four Powers—once by a note originally prepared at Vienna, and subsequently modified by the Porte—once by the proposal of bases of negotiation agreed upon at Constantinople on the 31st of December, and approved at Vienna on the 13th of January, as offering to the two parties the means of arriving at an understanding in a becoming and honorable manner.

It is thus manifest that a right for Russia to interfere in the ordinary relations of Turkish subjects to their Sovereign, and not the happiness of Christian communities in Turkey, was the object sought for by the Russian Government; to such a demand the Sultan would not submit, and His Highness, in self defense, declared war upon Russia, but Her Majesty, nevertheless, in conjunction with her allies, has not ceased her endeavors to restore peace between the contending parties.

The time has, however, now arrived when, the advice and remonstrances of the Four Powers having proved wholly ineffectual, and the military preparations of Russia becoming daily more extended, it is but too obvious that the Emperor of Russia has entered upon a course of policy, which, if unchecked, must lead to the destruction of the Ottoman empire.

In this conjuncture her Majesty feels called upon, by regard for an ally, the integrity and independence of whose empire have been recognized as essential to the peace of Europe—by the sympathies of her people with right against wrong—by a desire to avert from her dominions most injurious consequences, and to save Europe from the preponderance of a power which has violated the faith of treaties, and defies the opinion of the civilized world—to take up arms, in conjunction with the Emperor of the French, for the defense of the Sultan.

Her Majesty is persuaded that in so acting she will have the cordial support of her people; and that the pretext of zeal for the Christian religion will be used in vain to cover an aggression undertaken in disregard of its holy precepts, and of its pure and beneficent spirit.

Her Majesty humbly trusts that her efforts may be successful, and that, by the blessing of Providence, peace may be re-established on safe and solid foundations.

Westminster, March 28, 1854.

DECLARATION.

Her Majesty the Queen of the United Kingdom of Great Britain and Ireland, having been compelled to take up arms in support of an ally, is desirous of rendering the war as little onerous as possible to the Powers with whom she remains at peace.

To preserve the commerce of neutrals from all unnecessary obstruction, Her Majesty is willing, for the present, to waive a part of the belligerent rights appertaining to her by the law of nations.

It is impossible for Her Majesty to forego the exercise of her right of seizing articles contraband of war, and of preventing neutrals from bearing the enemy's despatches, and she must maintain the right of a belligerent to prevent neutrals from breaking any effective blockade which may be established with an adequate force against the enemy's forts, harbors, or coasts.

But Her Majesty will waive the right of seizing enemy's property laden on board a neutral vessel, unless it be contraband of war.

It is not Her Majesty's intention to claim the confiscation of neutral property, not being contraband of war, found on board enemy's ships, and Her Majesty further declares that, being anxious to lessen as much as possible the evils of war, and to restrict its operations to the regularly organized forces of the country, it is not her present intention to issue letters of marque for the commissioning of privateers.

Westminster, March 28, 1854.

DETAIL OF WAR NEWS
By the Hermann and America.

PLAN OF OPERATIONS AGREED UPON BY THE ALLIED POWERS.

The war is to be in strict accordance with a treaty between the Porte, France, and England, signed on the night of March the 12th, embracing five articles:

1st. England and France engage to support Turkey by force of arms until the conclusion of a peace that shall secure the independence and integrity of the Sultan's dominions.

2d. The Porte shall not conclude peace without the consent of her allies.

3d. The allies shall evacuate the Turkish territories after the war.

4th. This treaty to remain open for the adhesion of other Powers of Europe.

5th. Turkey guarantees to all the subjects of the Porte, without distinction of creed, perfect equality in law.

Several protocols are attached, regulating the details.

Meanwhile the campaign has begun in earnest.

THE CROSSING OF THE DANUBE BY THE RUSSIANS.

It is confirmed that the Russians have crossed the Danube in great force the object being to strikea decisive blow before the arrival of the Anglo-French force. On the 23d of March the Russian detachment under Prince Gortschakoff forced the passage of the Danube above Tulsha, and captured eleven guns, and 200 prisoners, and occupied Tulsha, together with several forts on the right bank.

Gen. Luders crossed with the main body of the army from Galatz without much loss. Not less than 50,000 Russians are now on the Turkish side of the Danube.

On the 24th Gen. Luders began preparations for the siege of Matschin. On the 23d the Russians attempted to cross the Danube at Oltenitza, when a desperate battle ensued, and the Russians were repulsed, with dreadful carnage. The Russians lost 3,000 men, and the Turks themselves were badly cut up that they had to retire to their entrenchments.

It will be seen, however, that the Russians have effected the passage at three points.

On the very day, the 22d, when the Russians commenced to cross the Danube, Omer had intended to attack the Russian headquarters at Fojana. A plan of the battle was drawn up, and the entire force put under command of the French Colonel Drew, but the Russian movement disconcerted the plan.

A dispatch from Omer Pasha, dated the 5th, says: "The Russians have lost all desire of attacking Kalafat, and purpose crossing the Danube at three points. If they should really do so they would render me a great service, enabling me to give a sound chastisement to these barbarians, who have broken into our house like robbers. But if the Russians do not resume the offensive, I shall undertake nothing important until the arrival of our reserves and cavarly from above."

It seems that Omer is prepared. He has 40,000 men in the right wing, with a line of works connecting with Silistria and Shumla.

The British frigate Retribution found the Sulina mouth of the Danube impassable.

Napier's fleet at last accounts (the 29th March) was again under way, the supposed destination being to siege the island of Aland. Riege bay is named as a rendezvous.

THE BRITISH INSTRUCTED TO COMMENCE HOSTILITIES.—Lord Bloomfield, the British Minister at Berlin, telegraphed to Sir Charles Napier the declaration of war, with instructions to commence hostilities.

FORMIDABLE PREPARATIONS OF THE RUSSIANS.—The Russians were making stern preparations for hostilities in the Baltic.

It was supposed that the first collision would occur at Vesel Island.

All the lighthouses and buoys are removed, and formidable fleets of gun-boats are collected in shallow waters at the principal points.

Masses of rocks are dragged along the ice to intricate parts of the channel, to block it when the ice shall melt.

All the houses in Cronstadt not capable of defence are pulled down.

New batteries were erecting everywhere, and two hundred additional gunboats had been ordered forthwith.

The Czar and his sons were personally superintending the preparations.

Soukum Kale was in flames, and the Circassians plundering it.

The French Declaration of War.

Paris, March 27, 1854.

The Minister of State read to-day to the *Corps Legislatif*, in the name of the Emperor, a message announcing that the final resolve of the Cabinet of St. Petersburg has placed Russia in a state of war as regards France. The Emperor also declares that the whole responsibility of this rupture rests on the Russian government.

The message was received with energetic expressions of adhesion by the whole legislative body.

M. Billault, the President, then went on to say that the Emperor relied on the support of the legislative body, as well as on that of all France, under this grave aspect of affairs.

This intimation was also received with loud cheers and the Assembly broke up with shouts of "*Vive l'Empereur!*"

A similar communication was also made to the Senate, where it was received with the same enthusiasm.

The Minister of Commerce has just informed the various Chambers of Commerce throughout France that letters of marque will not be granted to American vessels, and that the federal government had declared to the French Minister that it sees no contrary to the rights of nations would not be tolerated in the territory of the Union.

THE COMMERCE OF NEUTRALS—LETTERS OF MARQUE—HONOR TO THE UNITED STATES, ETC.—The French government makes a similar announcement with the British respecting the commerce of neutrals. It also at present will not issue letters of marque.

THE FRENCH AND ENGLISH TROOPS.—Fifteen thousand French troops had already embarked, and the remainder of the army, (50,000,) will be in Turkey by the 1st of May. Four thousand were landed at Gallipoli on the 26th ult.

It was reported that the British land force was to be increased 30,000 more.

The first division of the expeditionary force was being rapidly forwarded from Malta to Constantinople.

VIENNA, March 31, 1854.—A Greek mercantile house has just received a despatch announcing that on the 29th the Russians attacked Kalafat and took three redoubts.

The rupture between the Porte and Greece is complete.

AUSTRIA AND PRUSSIA.—The draught of a treaty between Austria and Prussia was sent to Berlin on the 23d ult., and this morning Baron Hess has left for Berlin. The ostensible object of this treaty is the maintenance of the neutrality of the two States, and of Germany; but, in fact, the treaty is the instrument of an offensive and defensive alliance. The terms, however, are not yet definitely settled, but the Austrian *Correspondenz*, in reference to this subject, says that there is no reason to doubt that a closer alliance, and a more perfect understanding, will be the result of the intercommunication of the two Cabinets.

SPAIN.—The following is telegraphed from Madrid, of date 25th March:

"The Queen has amnestied all the prisoners implicated in the Lopez invasion of Cuba."

FURTHER BY THE ARCTIC.

Highly Important Intelligence.

New York, April 17.

The Arctic arrived yesterday morning with three days later news than that by the America.

The news from the lower Danube is highly important. The Russians had seized nearly the whole of Dodned eschi, and about 45,000 of the Czar's soldiers occupied the territory between the Trajan Wall and the Danube.

Omer Pasha, with a large force, was concentrating for an attack on Kalafat and Silistria.

According to the Trieste Gazette, the Shah of Persia has determined on observing neutrality.

Advice from Odessa to March 23, mentions that the entire Russian fleet has left Sebastopol, it is believed to attack Varna.

Sir James Graham stated in Parliament, on the 30, that the allied fleets had left the Bosphorus for Varna.

It was positively asserted that 4,000 Russians from Sebastopol had been lauded and taken possession of the island of Tuscra, below Tultza.

There were the usual rumors of treachery on the part of the Turkish commanders of the different fortresses that have fallen into the hands of the Russians.

The Russians are razing all the fortresses in the Mabruschia.

A levy of 150,000 men is about to be made in France.

The Czar in a letter to the King of Prussia says? "I will not leave the Principalities until the Christians are emancipated, and the allied fleets have left the Turkish waters."

The Arctic arrived out on the 3d.

On Tuesday 4th, the *Niagara* sailed from Liverpool with the 88 regiment for the East.

The *Golden Age* reached King George' Sound, Australia, in 51 days, including fourteen days detention at St. Vincent and the Cape.

Steamship *Glasgow*, from New York, arrived at Greenock at 2 o'clock on 1st inst.

Among the passengers per *Arctic* was Hon. E. Marshall, late Commissioner to China.

No fewer than 15 packet ships, amounting to 16,000 tons, are at the present moment fitting up at Liverpool to convey troops to the East.

On Monday, April 3d, both Houses of Parliament assembled for the purpose of presenting to the Queen an address in reply to her Message, notifying the state of war with Russia. Processions were formed, one of the Lords and the other of the Commons, and proceeded to Buckingham Palace, to assure the Crown of the cordial support of all departments of government.

Advices from Odessa of the 15th ult state from excellent authority, that there is not a single ship of war in Sevastopol.

CONSTANTINOPLE, March 27.—The Allied fleets entered Beicos Bay on the 25th. Circassians by mistake fired on the *Samson* and *Cacique* steamers.

The Greek Minister has received his passports, and all foreign Greeks are to be sent from Turkey.

ATHENS, March 31.—Gen. Canrobert has arrived with two French steamers.

Trebuzz is blockaded.

THE LATEST DEVELOPMENT OF CHIVALRY.—The telegraph announced some days since that Messrs. WILD and SEELEY, members of the New York Common Council, had had a "personal Collision," and that Mr. Wild had challenged his antagonist. The world has waited in anxious expectation to hear the details of the case, giving the cause and the result of this momentous affair.

The world can breathe freely again. Councilman Wild, a candy manufacturer, his olfactories refined by his intercourse with Sweets, moved an inquiry into the policy of certain street improvements, in order to improve the odors of the city. At this, councilman SEELEY, a porter-house keeper, turned up his nose, and "accused the mover of the resolution of introducing "smutty matters" to the "honorable Board."

High words followed. Mr. Wild left the Chamber. Mr. Seeley arose—took a drink—and sat down. Presently Councilman JACKSON appeared, and handed Mr. Seeley the following note:

COUNCIL CHAMBER, NEW YORK, }
April 12, '54—3 o'clock P. M. }

JOHN SEELEY, Esq.—DEAR SIR: The personal assault made by you upon my motives in debate this evening is of so gross a character that the reputation I owe to myself, renders it incumbent upon me to hold you accountable for the same.

"I invoke the code of honor, and shall obey, with alacrity, any summons from you.

"Councilman J. A. Jackson, as my friend, will treat with you or yours.

(Signed) H. N. WILD."

The above was promptly answered by Mr. Councilman Clancey, as the friend of Mr. Seeley, by the following:

COUNCIL CHAMBER, NEW YORK, }
April 12, '54—8½ P. M. }

"H. N. WILD, Esq.—SIR: Your note has been received, and in reply, I would state that I retract nothing that I have said, and *gladly* accept your proposal to refer it to the *'code of honor.'*

"Any communication on the subject can be referred to my friend.

(Signed) JOHN G. SEELEY."

New York was awaiting, open mouthed, all the next day, to hear of the vindication of the honor of the councilmen by the death, or wounding, or backing out, of one or both of them; and did not finally settle down into quiet, and breathe freely, until the papers of the following evening contained the following notices:

From the Tribune.

THE STUPID FARCE.—The very ridiculous attempt of a brace of Councilmen to advertise themselves into public notice, by a pretended duel, has failed. We presume, however, that several rum toddies, and a considerable number of candy sticks, were disposed of to the anxious inquirers after the health of the belligerents. There was no more idea of fighting than of flying. However, for the purpose of carrying out the joke, resolutions of censure were offered in the Board last night—and withdrawn. These documents are not worth printing, and so they go under the table.

From the Times.

The belligerents, we are informed, concerted the plan comfortably between themselves, passed nearly the whole of Thursday night in a jollification in Hoboken, and found it convenient, in order to carry on the "fun," to employ the same legal gentlemen to draw up their "wills."

The Result of the Judicial Election.

The Madison *Journal* remarks upon Judge Larrabee's election in the 3d Circuit, on a People's Ticket, as follows:

It is but two years since the Judge was the regular nominee of his party for Chief Justice of the Supreme court, and was defeated. This learned him a lesson, as his recent action proves. It is a further source of congratulation, that in his recent bolt he has had the cordial sympathy and co-operation of Gov. Barstow and the balance of the state officers, who have for several months past exerted themselves to the utmost to defeat any regular democratic nominee, and elect him on independent grounds alone. Even our neighbor of the *Argus*, who makes great professions of love for regular nominations, aided the bolting movement, and now congratulates the Judge, "regarding his election as an honorable compliment to himself, and a vindication by the people of their own good sense, and superiority to the tricks of demagogues." We hope to hear no more of "regular nominations" for judicial officers, and cannot refrain from congratulating our neighbor upon coming over to our doctrine, and advocate the bolting of regular party nominees. It shows that common sense is progressing, and that the thin gauze of previous professions was but the cloak of deep seated hypocrisy, needing but a chance to unveil itself.

THE SCHOOL FUNDS.—It is hard to conceive how the Legislature, if it had exerted its extraordinary talent for evil, could have done a more wrong, unjust and widely injurious thing, than the resolution which passed, directing the State Treasurer to withhold the apportionment of the School moneys from such counties as have failed to pay their part of the State tax. This wicked and reckless measure falls with equal severity on the innocent as well as the guilty, without distinction, and is a fair specimen both ignorant and careless legislation. For instance, it is a fact that the town of Green Bay is not delinquent, though the county in which she is located is some thousand dollars in arrears. All our public schools have been stopped, and the poor children, whose parents may not be able to send them to a select school, must be deprived of the benefits of instruction for months; and all because a blundering or lazy set of men, *glorying in yet disgracing the name of legislators*, see fit to hold those who have paid their taxes responsible for those who have not.—*Green Bay Advocate.*

Highlands, N. Y., April 18.

The ship ashore at Squam Inlet is the Underwriter, of the Kermit & Cairo line, from Liverpool. She lies head to sea and apparently in an uneasy position. The sea was running so high that she could not be boarded. Nothing further from the ship near Barnegate. The Underwriter is 1400 tons and has many passengers on board. The steam tug Achilles has left for the Underwriter, and the Triton for the ship at Barnegat.

A dispatch from New Orleans says there was a rumor in that city to the effect that 50 Americans have been arrested at Santa Gloria on the Pacific coast of Mexico, for landing without passports, and were to be shot.

THE OCEAN.—This steamer takes her place in the Central Railroad Line, and leaves for Buffalo to-morrow morning, at nine o'clock, on the arrival of the Western cars. She, as well as the May Flower, has been thoroughly overhauled from stem to stern—repaired, refitted, and painted anew, and looks as neat as a little miss in her best pinafore. Her officers, as far as we could get their names, are as follows:—C. C. Blodgett, Captain; John Bony, Mate; Peter Murray, Engineer; —— Simonson, Steward. She will, undoubtedly, be well manned, and retain all her old popularity with the traveling public.—*Detroit Trib. 17th.*

WHEAT ON THE GROUND.—It is said by every one coming in from the surrounding country, that winter wheat never looked more promising for a bountiful crop at this season of the year, than at the present time. Spring crops are being sowed on every available acre of land, not devoted to corn, potatoes, or other vegitables.—*Watertown Chronicle.*

☞ The Lockport *Courier* says that the new Engine of "De Witt Clinton Company," of that village, was tested on Friday last, and threw a stream 30 feet above the Liberty Pole, which is 133 feet high.

Add about 60 feet to the above, and it will be somewhere near the performance of No 9's new Engine, built in this city.

Lake Marine News.

Buffalo, April 17.

The propeller Gen. Taylor came in yesterday from Detroit, with 4,000 bbls of flour. The Taylor had been sent up thus endeavoring to get into Dunkirk; but owing to the large quantity of ice near there, she was unable to enter, and came down here.

☞ The propeller Genesee Chief also came in during last night from Cleveland. She had a cargo of provisions and live hogs for Dunkirk, which port she was unable to make.

The new propeller Oriental, built for W. D. Walbridge of this city, was launched this morning. She is 230 feet long, draws 9ft. 6 in. on an even keel when light, and is 1,000 tons burthen. She will be ready to leave for Chicago by the 1st of May.

The steamer Buckeye State hauled down to her dock this morning from winter quarters, and leaves for Detroit to-night.

FIRST STEAMER FOR BUFFALO.—The *Mayflower* left her dock this morning on her advertised time for Buffalo by way of the North Shore of the Lake. She will, probably, meet with no difficulty in getting through, and the regular trips of the boats of the Central Railroad line, may, therefore, be considered as commenced. The M. took a very fair load of passengers, and went down the River in gallant style. A goodly crowd were in attendance to witness the first departure of the old favorite.—*Detroit Trib. 17th,*

City Matters.

POLICE COURT, April 19.

A man named John Schleyer was arrested by constable Kessler, charged with keeping a disorderly house in the 1st Ward above the market house. The city attorney made the proposition that the warrant should be held over the defendant and that if he continued to keep the disorder he should be brought up. To this the defendant, by his counsel, would not consent, but demanded a trial; and made application for a continuance, which was finally granted.

A man named John Brehn was brought up by constable Fisher for assault and battery upon his wife Minnie Brehn; the case as made out seemed to be pretty nearly a drawn game between the parties, both appearing equally to blame. The defendant was found not guilty and discharged.

A man named Peter Wienfeld was brought down from jail by constable Kessler for assault and battery upon Frederica Schleighter, on the 18th of April. The defendant plead guilty and was fined ten dollars and costs amounting to $14,57

A man named Thomas Pentoney was arrested in Granville by a constable from that town, and taken to jail on a warrant issued from the Police Court, and which was understood to be returnable before Justice Enos of Granville.

From Washington.

Washington, April 18.

The Gadsden treaty was rejected in executive session by 27 to 16. The Sloo amendment was lost by 2 votes. Much speculation exists as to the effect of rejection; it was intimated by the President and certain members of the cabinet, while the treaty was under discussion, that a refusal of the senate to ratify it would be followed with immediate war with Mexico. The President considering himself called upon to seize the Mesilla Valley, let come what may. This intimation was considered an attempt to intimidate Senators, and those best informed here say, that the President will appoint another commissioner to negotiate. Under existing circumstances developements of the policy in the premises are anxiously awaited.

Washington, April 18th, 6 P. M.

In the Senate several petitions and memorials were presented. One by Mr. Sumner against paying the Amistad slave claim, and another by Mr Cass from Jewish citizens, relative to religious toleration. The bill for the re ief of the Burlington University passed. The Homestead bill was taken up, Mr. Pettit now speaking in its behalf.

The *Atlantic* sailed at noon to-day $750,000 in specie and 176 persons.

The *Herald's* Washington correspondent says important news has been received from Havana. The refusal of Commodore Newton to salute the Spanish flag was occasioned by a difficulty between Consul Robinson and the Captain General.

The Spectator.—Last week, we stated the number of students in attendance at the Lawrence University, at 190. The accessions since made swell that number to 207; showing an increase of over 40 students since last term.—*Appleton Crescent.*

Latest from the Straits.—We learn from a most creditable source that the mail carrier, who left Mackinac on the 4th inst., arrived at Sheboygan, Wis., last week and reports that when he left, the ice was five feet thick in the Straits and covered with snow. He crossed over to Beaver Island, and thence to the west shore. He could see no water from the Beaver—all ice.—*Chicago Dem. Press, Tuesday.*

Rail Road Accident.—On Friday last as the afternoon train was coming from Milwaukee, nine miles from that city, three frightened colts and one horse jumped the fence and attempted to cross the track before the train. The first colt was caught by the cowcatcher and literally torn to shreds, the second colt was so seriously injured that it lived but few minutes, and the third had both fore legs cut off, and could not live. How the engine escaped being thrown from the track down a dangerous bank we cannot conceive. It was however but slightly damaged though it was running at the rate of 25 miles per hour. One of the pumps was broken which delayed the train about two hours at Waukesha.—*Janesville Free Press.*

The Railroad.—Mr. Durand, President of the Racine & Mississippi Railroad, has returned home from New York and brings the welcome intelligence to our Citizens, of the completion of a contract with Messrs. R. & G. S. Schuyler by the terms of which they are to furnish all the Iron and Rolling Stock for our Western Railroad. They are to furnish 6,500, tons of Rails, eight first class Locomotives; eight first class passenger cars; four baggage cars; thirty gravel cars; one hundred and twenty freight cars; the delivery of which in this place is to be finished by the 15th of October next. They are to lay the track from this City to Beloit. The Messrs. Schuyler are wealthy and responsible men, and will fulfill their contract to the letter.—*Racine Democrat.*

We would call attention to an article we copy to-day, from the Milwaukee Sentinel, with regard to the violation of the Constitution in certain appointments, that have been made of late. The case seems to be a clear one; and it would seem that such things should not be the result of ignorance. It may be understood, however, by the Executive, as it seems to have been by many members of the Legislature, that *the Constitution is repealed.*—*Madison Journal.*

Holloway's Ointment and Pills, the best Remedies for the cure of Bad Legs.—Mrs. Heppel, of Blyth, near Morpeth, was afflicted with a dreadfully bad leg, for which she consulted the most eminent medical men in that neighborhood, but it would not yield to their treatment. Her health suffered severely, and the state of her leg was terrible; the ulcers rapidly increased in size, and the pain was most agonizing. In this state she commenced using Holloway's Ointment and Pills, and after continuing them for some short time the leg was completely cured, and she is now in the enjoyment of excellent health. Mr. Wilkinson, druggist, Blyth, vouches for the accuracy of this statement.

A Wonderful Discovery has recently been made by Dr Curtis, of this city, in the treatment of Consumption, Asthma and all diseases of the lungs. We refer to "Dr. Curtis's Hygeana, or Inhaling Hygean Vapor and Cherry Syrup." With this new method Dr. C. has restored many afflicted ones to perfect health; as an evidence of which, he has innumerable certificates. Speaking of the treatment, a physician remarks:—It is evident that inhaling—constantly breathing an agreeable, healing vapor, the medicinal properties must come in direct contact with the whole of the aerial cavity of the lungs, and thus escape the many and varied changes produced upon them when introduced into the stomach, and subjected to the process of digestion The Hygeana is for sale at all the druggists' throughout the country.—*New York Dutchman, Jan 14th.*

☞ The best evidence that can be adduced in favor of the efficaciousness of Hostland's German Bitters, prepared by Dr. C. M. THE SUBSCRIBER, desirous of settling in Milwaukee, offers to exchange or sell his Real Estate for Property in this City, or Farms in this State. Said Estate is situated in Ann Arbor, County Seat of Washtenaw County, Mich., 45 miles west of Detroit, on the Michigan Central R.R., and well known as the handsomest and healthiest city on the line. Its Water Privileges and surrounding Farming Country are second to none in the State.

The property offered is a New Block of Four Brick Stores, Stuccoed and Finished throughout, fronting on the Public Park, and will be ready for occupancy the first of May next. Also a well-stocked Lumber Yard, and a Dwelling House, finished for my private use, on east of Block, and will be disposed of at the same time to the best business part of Block, and will be disposed of at the same time to the best business part of the City. Adjoining said Block is a Fashionable Brick Dwelling House, finished for my private use, on east of Block, and about $5,000. Also a well-stocked Lumber Yard, and a Hardware Store, doing now a first rate business. This is a chance seldom met with, for a person wishing to engage in trade. New York, April 18.

The Courier's correspondent says the vote on the Nebraska treaty stood 19 against, 25 for it. The vote was to a great degree sectional; it is probable the Massilla Valley will be occupied by Gen. Garland, and a special minister sent to Mexico with full powers.

Baltimore, April 18.

New York papers of Wednesday contains detailed news from Mexico.

The accounts of the movement of Alvarez are conflicting. The most reliable are in favor of Alvarez.

Boston, April 13.

Josiah Shaw has appointed temporary receivers of the Columbian Bank.

New York, April 18.

An Italian ship with a large number of passengers on board, is reported to have been ashore on Sunday, 5 miles below Barnegate, and it is feared she may have gone to pieces during the gale of that day.

Detroit, April 18.

Captain Canfield of the Topographical Bureau, and son-in-law of general Cass, died at his residence in this city this morning. Funeral Thursday morning.

From Washington.

Washington, April 18.

The Gadsden treaty was rejected in executive session by 27 to 15. The Sloo amendment was lost by 2 votes. Much speculation exists as to the effect of rejection; it was intimated by the President and certain members of the cabinet, while the treaty was under discussion, that a refusal of the senate to ratify it would be followed with immediate war with Mexico. The President considering himself called upon to seize the Mesilla Valley, let come what may. This intimation was considered an attempt to intimidate Senators, and those best informed here say, that the President will appoint another commissioner to negotiate. Under existing circumstances developements of the policy in the premises are anxiously awaited.

Washington, April 18th, 6 P. M.

In the Senate several petitions and memorials were presented. One by Mr. Sumner against paying the Amistad slave claim, and another by Mr. Cass from Jewish citizens, relative to religious toleration. The bill for the relief of the Burlington University passed. The Homestead bill was taken up, Mr. Pettit now speaking in its behalf.

House—The consideration of the bill increasing the salaries of clerks, etc, in the Executive Departments was resumed.

Washington, April 14, 1854.

House.—The bill to reduce and graduate the price of the Public Lands, was ordered to be engrossed for a third reading by a vote of 72 to 68.

Mr. Cox moved to lay the bill on the table. Negatived, 69 against 80.

The bill was then passed by Yeas 83; Nays 64.

From Havana.

New York, April 15.

The *Atlantic* sailed at noon to-day $750,000 in specie and 176 persons.

The *Tribune*'s Washington correspondent says important news has been received from Havana.

The refusal of Commodore Newton to salute the Spanish flag was occasioned by a difficulty between Consul Robinson and the Captain General.

The Steamers.—Last week, we stated the number of students in attendance at the Lawrence University, at 190. The accessions since made swell that number to 207; showing an increase of over 40 students since last term.—*Appleton Crescent.*

Latest from the Straits.—We learn from a most creditable source that the mail carrier, who left Mackinac on the 4th inst., arrived at Sheboygan, Wis., last week and reports that when he left, the ice was five feet thick in the Straits and covered with snow. He crossed over to Beaver Island, and thence to the west shore. He could see no water from the Beaver;—all ice.—*Chicago Dem. Press, Tuesday.*

Rail Road Accident.—On Friday last as the afternoon train was coming from Milwaukee, nine miles from that city, three frightened colts and one horse jumped the fence and attempted to cross the track before the train. The first colt was caught by the cowcatcher and literally torn to shreds; the second colt was so seriously injured that it lived but few minutes, and the third had both fore legs cut off, and could not live. How the engine escaped being thrown from the track down a dangerous bank we cannot conceive. It was however but slightly damaged though it was running at the rate of 25 miles per hour. One of the pumps was broken which delayed the train about two hours at Waukesha.—*Janesville Free Press.*

The Railroad.—Mr. Durant, President of the Racine & Mississippi Railroad, has returned home from New York and brings the welcome intelligence to our Citizens, of the completion of a contract with Messrs. R. & G. S. Schuyler by the terms of which they are to furnish all the Iron and Rolling Stock for our Western Railroad. They are to furnish 6,500. tons of Rails, eight first class Locomotives; eight first class passenger cars; four baggage cars; thirty gravel cars; one hundred and twenty freight cars; the delivery of which in this place is to be finished by the 15th of October next. They are to lay the track from this City to Beloit. The Messrs. Schuyler are wealthy and responsible men, and will fulfill their contract to the letter.—*Racine Democrat.*

We would call attention to an article we copy to-day, from the Milwaukee Sentinel, with regard to the violations of the Constitution in certain appointments, that have been made of late. The case seems to be a clear one; and it would seem that such things should not be the result of ignorance. It may be understood, however, by the Executive, as it seems to have been by many members of the Legislature, that *the Constitution is repealed.*—*Madison Journal.*

Holloway's Ointment and Pills, the best Remedies for the cure of Bad Legs.—Mrs. Heppel, of Blyth, near Morpeth, was afflicted with a dreadfully bad leg, for which she consulted the most eminent medical men in that neighborhood, but it would not yield to their treatment. Her health suffered severely, and the state of her leg was terrible; the ulcers rapidly increased in size, and the pain was most agonizing. In this state she commenced using Holloway's Ointment and Pills, and after continuing them for some short time the leg was completely cured, and she is now in the enjoyment of excellent health. Mr. Wilkinson, druggist, Blyth, vouches for the accuracy of this statement.

A Wonderful Discovery has recently been made by Dr Curtis, of this city, in the treatment of Consumption, Asthma and all diseases of the lungs. We refer to "Dr. Curtis's Hygeana, or Inhaling Hygean Vapor and Cherry Syrup." With this new method Dr. C. has restored many afflicted ones to perfect health; as an evidence of which, he has innumerable certificates. Speaking of the treatment, a physician remarks:—It is evident that inhaling—constantly breathing an agreeable, healing vapor, the medicinal properties must come in direct contact with the whole of the aerial cavity of the lungs, and thus escape the many and varied changes produced upon them when introduced into the stomach, and subjected to the process of digestion The Hygeana is for sale at all the druggists throughout the country.—*New York Dutchman, Jan 14th.*

☞ The best evidence that can be adduced in favor of the efficaciousness of Hoofland's German Bitters, prepared by Dr. C. M. Jackson is the unprecedented demand for them from all parts of the Union; and although there may be many compounds prepared and represented as being worthy of a liberal patronage, yet we feel constrained to remark that the vast number of testimonials with which the worthy doctor has been honored, by persons of the highest character and respectability, who found it necessary to have course to his preparation, is testimony sufficiently conclusive, that a more effectual remedy for the almost immediate relief of those afflicted with that direful malady, dyspepsia, has never been discovered.

To Real Estate Agents and others.

THE SUBSCRIBER, desirous of settling in Milwaukee, offers to exchange or sell his Real Estate for Property in this City, or Business in this locality. Said Estate is situated in Ann Arbor, County Seat of Washtenaw County, Mich., 38 miles west of Detroit, on the Michigan Central R. R., and well known as the handsomest rail healthiest city on the line. Its population is 6,000, and is the seat of the most pleasant and thriving business City in the State, being the site of the Michigan University, Medical College and Observatory, with Nine Grammar and over 1000 Students from every part of the Union. Its Water Privileges and surrounding Farming Country are second to none in the State.

The property offered is a New Block of Four Brick Stores, Stuccoed and Finished throughout, known as the Buchan Block, and will in a short time be the best business part of the City. Adjoining said Block is a Fashionable Brick Dwelling House, finished for my private use, at a cost of about $5,000. Also a well-stocked Lumber Yard, and a Hardware Store, doing now a first rate business. This is a chance seldom met with, for a person wishing to engage in the trade; will sell either or both of said Stocks of Goods. Take the Property together, it is the best and cheapest investment in the city.

Also several good Improved Farms, near Ann Arbor. Also Two Fine Rose Wood Billiard Tables, in exchange for Milwaukee Property.

For further particulars inquire of A. R. VAN CUT, Watch Maker, Milwaukee, or direct to me at Ann Arbor, Michigan. Time Short.

THE

BUFFALO EAGLE IRON WORKS CO.

Propose to pay Particular attention to

Architectural Iron Work.

WE are prepared to Manufacture IRON FRONTS for Stores and Public Buildings, with the

Patent Fire Proof Rolling Shutters.

These Shutters are the same that are now so generally used in New York, and may be put in any Window, Small or Large, and if arranged before erected in the building, may be used without injuring the appearance of the architecture. They make the only perfect Fire Proof Shutters, and do not appear to the eye when rolled up

When desired we will furnish the Iron for Store Fronts, (with or without the patent Shutters), with estimates of the Cost of the work finished ready for delivery. To our Western friends we think this arrangement will be desirable, for they thus are enabled to know without experiment what the Front is to be, and what it is to cost.

When the Patent Shutters are used we will furnish a man to superintend the erection of the Iron Front and the setting of the Shutters.
